The Zohar (III:195a) states that one's will is to be like that of a pauper. Thus consider yourself like a pauper and always speak with soft and beseeching words like a pauper. **When a person always makes his will as that of a pauper, his prayer ascends...**

*Which is the most excellent of all [prayers]? It is the prayer of the poor - it takes precedence to all prayers of the world. This is because he is broken-hearted, and it is written, "G-d is near to the broken-hearted". (Psalms 34:19) Thus, when praying, a person should make himself "poor". When a person always makes his will as that of a pauper, his prayer ascends and will be received favorably before the Holy King.*
